EDUCATION

Vetel wants you to learn the tools of your practice. We provide up to date user guides for your DR systems and software. Vetel has also put together online education programs for thermography and ultrasonography with the top experts in each field. We partner with manufacturers to provide training for all the tools in our diagnostic toolbox.

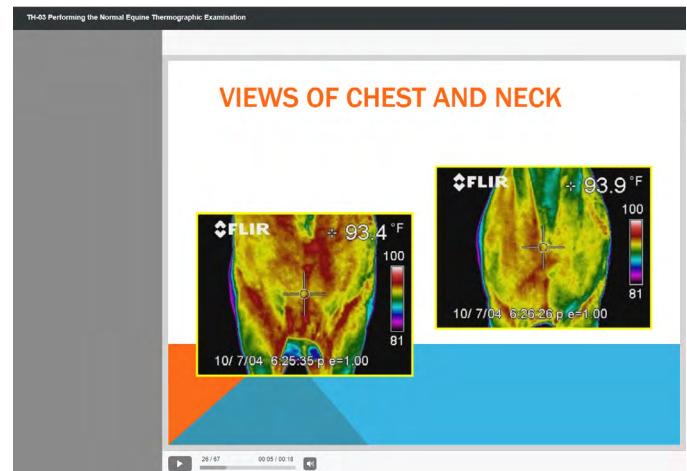

Would you benefit from our online training courses?

Thermography -

- TH-01 - Introduction and Safety Around Animals
- TH-02 - Artifacts, Environmental Concerns & Physiology
- TH-03 - Performing the Normal Equine Thermographic Examination
- TH-04 - Equine Limbs: the foot, joints, tendons and ligaments
- TH-05 - Back Pain in Horses

+ 9 more modules

Ultrasound CA -

- 01 - Veterinary Ultrasound – Introduction and Physics
- 02 - Veterinary Ultrasound – Artifacts
- 03 - Veterinary Ultrasound – Hepatobiliary System
- 04 - Veterinary Ultrasound – Gallbladder
- 05 - Veterinary Ultrasound – Spleen

+ 6 more modules

Online courses included FREE in all ultrasound or thermal camera sales

TESTIMONIALS

"Due to COVID-19, we were met with delays, mix ups, and a few other issues. I have to say, through it all we worked with Vetel and they went above and beyond. The communication was great, the customer service was one of the best I have ever experienced. We were in dire straights and needed our new radio-graphs machine asap, and they worked diligently and shipped it overnight. The team helping us get set up is showing just as much character and integrity in dealing with us. We have loved working with this company and look forward to many years to come. Could not say enough good things about the staff, I truly felt that they cared and were on my team as they walked through all the problem solving with me. Thank you for hanging in there, and going the extra mile. We are so happy with the new machine, and so grateful for all the support that came with it along the way." ~ Black Diamond Equine, Office Manager

"I was first introduced to Vetel as a new practitioner. I purchased a pre-owned unit. Amazingly, when I had a question, I talked to the OWNER of the company, Dr. James Waldsmith. Really! After 6 years of reliability I decided to go wireless. I demo'd the competitors' units, but clarity and quality of image was best-in-class with the ruggedized Enduro unit, and Metron software is intuitive, and customer support... second to none! Don't be fooled by these bigger companies. Vetel is a gem that more people need to discover. Thank you!" ~ Draft Colt, DVM

"Excellent products and customer service...the service team amazingly supportive and knowledgeable!" ~ Jan Luquire, DVM

"I run a mobile, all-equine practice and have been a Vetel customer for over 12 years. I purchased one radiology system and was so pleased with the images, usability and support that I recently purchased a second system for my associate and upgraded her equipment as well. We are located within 2 hours of numerous vet schools and utilize them for referrals. I have had numerous compliments from the university surgeons about the sharpness and quality of the films that we send with our cases. The toughness and reliability of the system components is important when doing all field work as well and I have had no issues in the years that I have been using Vetel products. I also feel that there is a distinct advantage dealing with a company started and run by veterinarians- for veterinarians. The promptness in response to questions and attention to keeping me up and running has been excellent. Vetel gets my highest recommendation." ~ Kenneth Marcella, DVM

"I have been a Vetel customer for over 15 years. Quality imaging equipment with excellent 24/7 Customer Service. They absolutely understand the needs of today's Equine Practitioner." ~Mark Akin, DVM

"I bought a Vetel wireless xray system last year and am very pleased with the image quality and ease of use. Vetel support has been extremely helpful. I only have a hot spot connection and Charles from technical support has remained patient while he fixed a microsoft update problem and a metron program update. Having had other companies xray systems before I purchased this one, I have to say Vetel support is far and away the most responsive and easiest to connect with." ~Helen Poland, DVM

"(Translated by Google) Excellent service. I have a portable x-ray machine and it is excellent. Highly recommended, Martín is very kind

(Original)

Excelente servicio. Tengo un equipo de rayos x portátil y es excelente. Muy recomendable, Martín es muy amable." ~Andres Russo, DVM

DR-Cowboybox
DR-Combibox LM / AP
Combibox Dummy LM

DR - Podo-Protection Box

The DR-Podo-Protectionbox is a handheld, lightweight protection box that totally secures and protect your expensive flatpanel from outside influences. Because this model also combines the 'hands free' system we offer, in combination with our Podoblock and DR-Combibox, it creates a safe and quick working situation
